DETAILED ACTION

EXAMINER'S AMENDMENT

- 1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- 2. Authorization for this examiner's amendment was given in a telephone interview with Thomas J. Brindisi, Esq. on 1/26/2005.
- 3. The application has been amended as follows:
 - CANCEL claims 13 21
 - In claim 22, insert the phrase "said master device" after the section
 designating letter c) and before the word "selectively" so that section c) of
 Claim 22 begins with c) said master device selectively charging said slave
 devices...
- 4. The following is an examiner's statement of reasons for allowance: the prior art references to Tyler and Boucher are no longer applicable in view of the above amendments authorized by the Applicant. None of the prior art anticipates or makes obvious that the master device issues a single charge command received by all slave devices followed by a clock sequence. Tyler individually addresses each slave device in a sequential manner and does not charge devices in banks, while Boucher employs "smart" slave devices, which are capable of arming themselves without a command from a master device.
